

27 SEP 1974

MEMORANDUM FOR: Director, Imagery Analysis Service
SUBJECT : IAS Objectives for FY 1975

In carrying out your assigned mission and functions, as described in Agency regulations, and consistent with other Agency and community objectives, including the Key Intelligence Questions and other specific guidance, we have mutually agreed that you will concentrate on the achievement of the following specific objectives this year.

1. To identify with our consumers [redacted] their needs for direct IAS support, and to formulate IAS staffing and other resource requirements by February 1975 for satisfying those needs in FY 1977 and beyond.
2. To develop individually with principal consumers in FY 1975 procedures for evaluating the effectiveness of IAS responses to their needs.
3. To continue development with OSR of more efficient means of reporting imagery-derived data on MBFR related forces into OSR automated ground forces data bases, completing by the end of FY 1975 an investigation of the feasibility of on-line data links.
4. To continue development in FY 1975 of a computerized file of imagery-derived information on Chinese non-military industries in support of OER; completion of the file to be accomplished in FY 1976.
5. To develop in FY 1975 computer assisted procedures for utilizing this industrial data base to update basic imagery interpretation reports in support of COMIREX.

SECRET

6. To complete development of an automated data file for storage, retrieval, and analysis of information on Chinese missile deployment, production, training, and storage facilities by the end of FY 1975; file manipulation and experimental analysis is to be in progress by mid-FY 1975.

7. To implement by the last quarter of FY 1975 a timely, accurate and comprehensive management information system for IAS replacing the three less efficient systems previously in use.

8. To develop by mid-FY 1975 standard criteria and a systematic approach to training that will produce and maintain those professional skills necessary to accomplish the IAS mission and objectives.

EDWARD W. PROCTOR
Deputy Director for Intelligence
